Plant something

**How to take this break**
Plant flowers, vegetables or herbs in a workplace green space or in an indoor pot. You and your co-workers can use your break time to tend the plants (e.g., watering, weeding, etc.) If the garden is large enough, consider using the vegetables for a work potluck or the flowers to brighten the common area in your workplace.

**Why this counts - Calming**
Growing plants may lift spirits and soothe the mind and body.
